

Job Title: QA Tester

Duration: 02/01/17 to 05/31/17

Hours per week: 10

Positions Available: 2

Job Description: The Division on Addiction is seeking individuals to test its recently developed Computerized Assessment Referral System (CARS). CARS is a clinical report generator tool that packages a powerful mental health assessment tool with a user-friendly interface, user flexibility, and immediate personalized output. Under the direction of the Associate Director of Research, QA Testers will test the CARS software using testing scenarios, develop additional testing scenarios, record results of testing, input found errors into an online database, and re-test modified versions of the tool. These individuals will work closely with the Division on Addiction to complete testing and scenario development.

This is a temporary, part-time contract position from February through May 2017.

Requirements: Organized, focused
